

InnoEducaTIC 2022

IX Iberoamerican Conference of Educational Innovation in the fields of ICT and TLK

Las Palmas de Gran Canaria – 17th-18th November 2022

<http://www.innoeducatic.es/>

The IX Iberoamerican Conference of Educational Innovation in the fields of **Information and Communication Technologies** (ICT) and **Technologies for Learning and Knowledge** (TLK) intend to be a forum for discussion, exchange and dissemination of teaching experiences in the realm of Educational Innovation and Research. In this conference, different topics related to methodologies and teaching strategies with ICT will be addressed in addition to the use of TLK not only in higher education but also in non-university programs. This conference is presented as a platform where the participation of teachers, education managers, researchers and students will deal with issues related to: acquisition and verification of skills, methodologies and resources for teaching-learning, use of new technologies, quality management of degrees, as well as other matters related to educational innovation.

Main Themes

1. Teaching methodologies
2. Teaching materials and resources
3. Learning through ICT tools
4. Use of technologies for learning and knowledge
5. Adquisition of skills
6. Techniques and tools for assessment
7. Tutorial action and mentoring
8. Integration and orientation of students
9. Coordination and monitoring experiences
10. Digital skills
11. Educational experiences in the post-COVID context
12. Other aspects of Educational Innovation

Conference submissions online and Conference proceedings

Conference submissions are subject to a double-blind peer review process so that authors will add these data in the final version of their proposal once it has been accepted.

Conference papers can be sent in Spanish or English. A book of proceedings with ISBN number will compile all the accepted contributions. The proceedings of the Conference will be published in the institutional repository of the Universidad de Las Palmas de Gran Canaria (accedaCRIS).
