

Las Palmas de Gran Canaria – November 19–21, 2025

<http://www.innoeducatic.es/>

The XII Jornadas Iberoamericanas de Innovación Educativa en TIC y TAC serves as a space for reflection and collaboration among educators, researchers, and professionals committed to improving the quality of education in today's digital environment.

In this edition, InnoEducatic 2025 aims to focus, among other initiatives, on socially driven methodologies that promote the development of conscious, engaged students who are prepared to contribute meaningfully to the transformation of their communities. Furthermore, the conference seeks to contribute proposals involving artificial intelligence, both as a resource to enrich educational experiences and as a subject of critical analysis in relation to its pedagogical, ethical, and cognitive implications.

The educational community is encouraged to submit experiences and projects that generate impact

beyond the classroom, promoting an ethical, context-aware, and transformative use of emerging technologies in response to the great challenges of the 21st century.

We invite all participants to share their experiences, learn from passionate peers, and contribute to the advancement of educational innovation in ICT and TAC. This event is a unique opportunity to build connections, exchange ideas, and foster collaborations that strengthen our work as educators. We aspire to a future in which technology and pedagogy act in synergy, enriching educational experience and shaping individuals capable of confidently addressing the challenges of the 21st century.

Important Dates

Deadline for submission of papers:

September 28, 2025

Notification of acceptance:

October 19, 2025

Final versions and registration deadline:

October 26, 2025
